

Friends of Kwezana Primary

Here and There

The garden at Kwezana is beginning to show real promise. Chipmonks day nursery are kindly sponsoring a gardener to help bring the land to life and teach the children how to care for the plants.

Miss Entwistle and Mr. Freytag helped the children to plant 6 fruit trees during their visit in August.

The garden will also be used for outside learning as well as to provide fresh fruit and veg. Miss Mveni is planning to teach her Grade 2 and 3 children how to make compost as part of a healthy eating topic they will be sharing with children at Settle Primary.

On Friday the 8th of November Nonkosi Nojozi arrived in Settle as part of an exchange trip from Kwezana Primary in South Africa.

Miss Nojozi is the Reception teacher at Kwezana and was really excited to be able to spend some time in the Foundation Stage with Miss Greenwood and Miss Smith.

During her week long stay Nonkosi spent some time in each classroom and got to know lots of the children and teachers. At the end of her visit Nonkosi returned with lots of ideas on how to brighten up her classroom and improve play opportunities for her children. Hopefully Kwezana reception children will soon have access to a special outside play area and will discover the delights of playdough and dressing up.

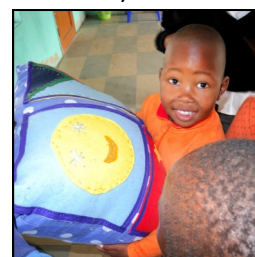

August visit to Kwezana photos

Baking with Miss Ratcliffe

Cushions made by Class 4 for Kwezana

Kwezana Primary has broken up for their summer holidays. They will return to school on the 15th of January and we look forward to working with them again.

We want to wish all the children who have left to go to High school good luck in the future.
