

## VOLUNTEER

**Could you give two weeks of your holidays to teaching primary aged children in South Africa?**

Poverty, poor nutrition and low achievement mean limited life chances for the children of these rural communities.

Experience a different culture and help children to improve their English language skills and confidence.

Share your skills and educational experience with the teachers of Tyume Valley.

## What can you expect on a trip?

Everyone usually meets up at East London and then we travel together to the Tyume Valley. Accommodation is arranged beforehand and may range from very basic rooms in a village to small hotels. Activities usually include workshops for teachers, activity weeks for the students and visits to schools. There is also time for some relaxation at the weekend and some volunteers decide to stay a little longer and take the opportunity to have a holiday.

**Experience life in this rural community in South Africa.**

**Tyume Valley, Eastern Cape**

***A stunning location!***
